

FIG. 1

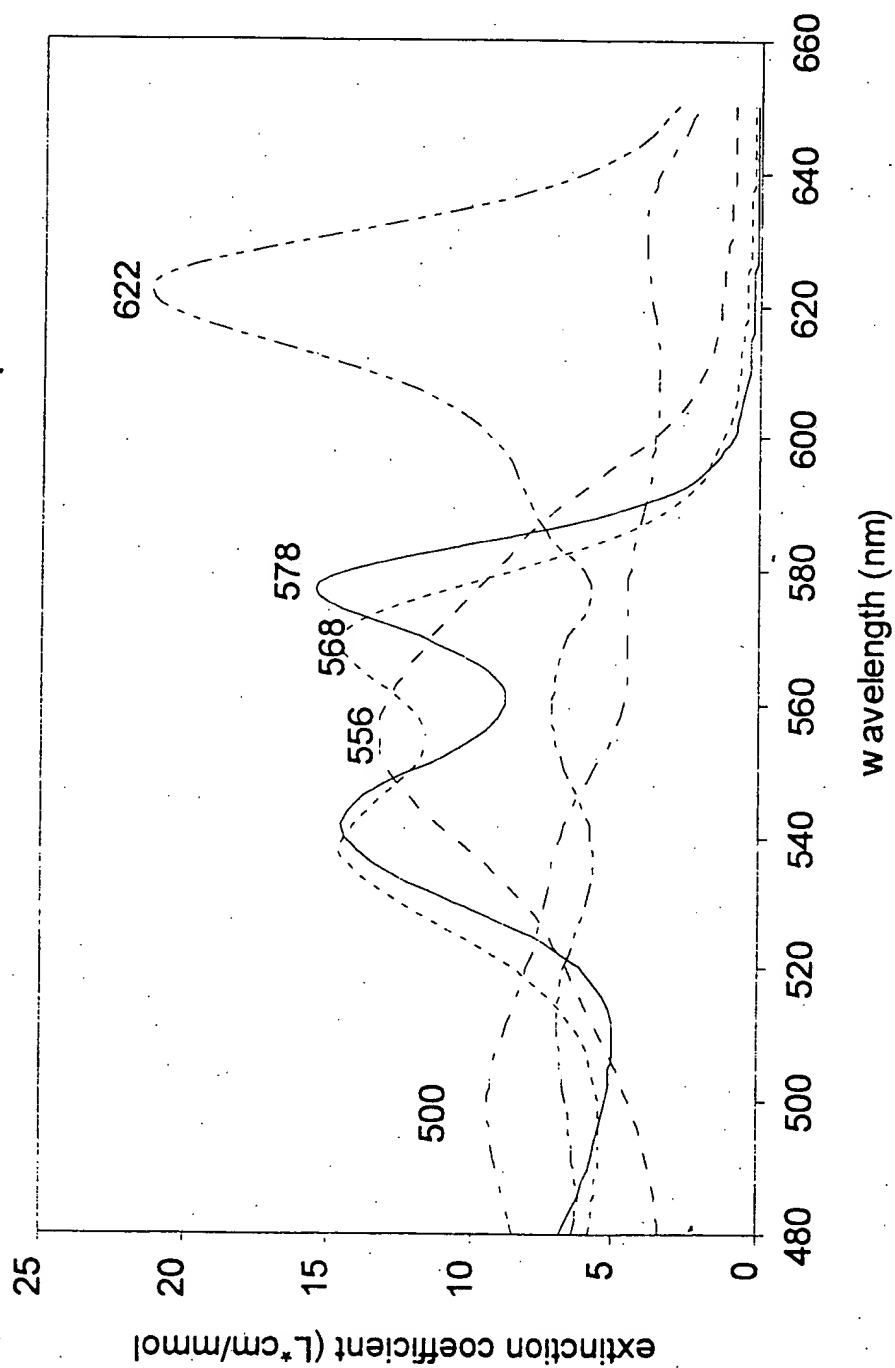

Figure 2

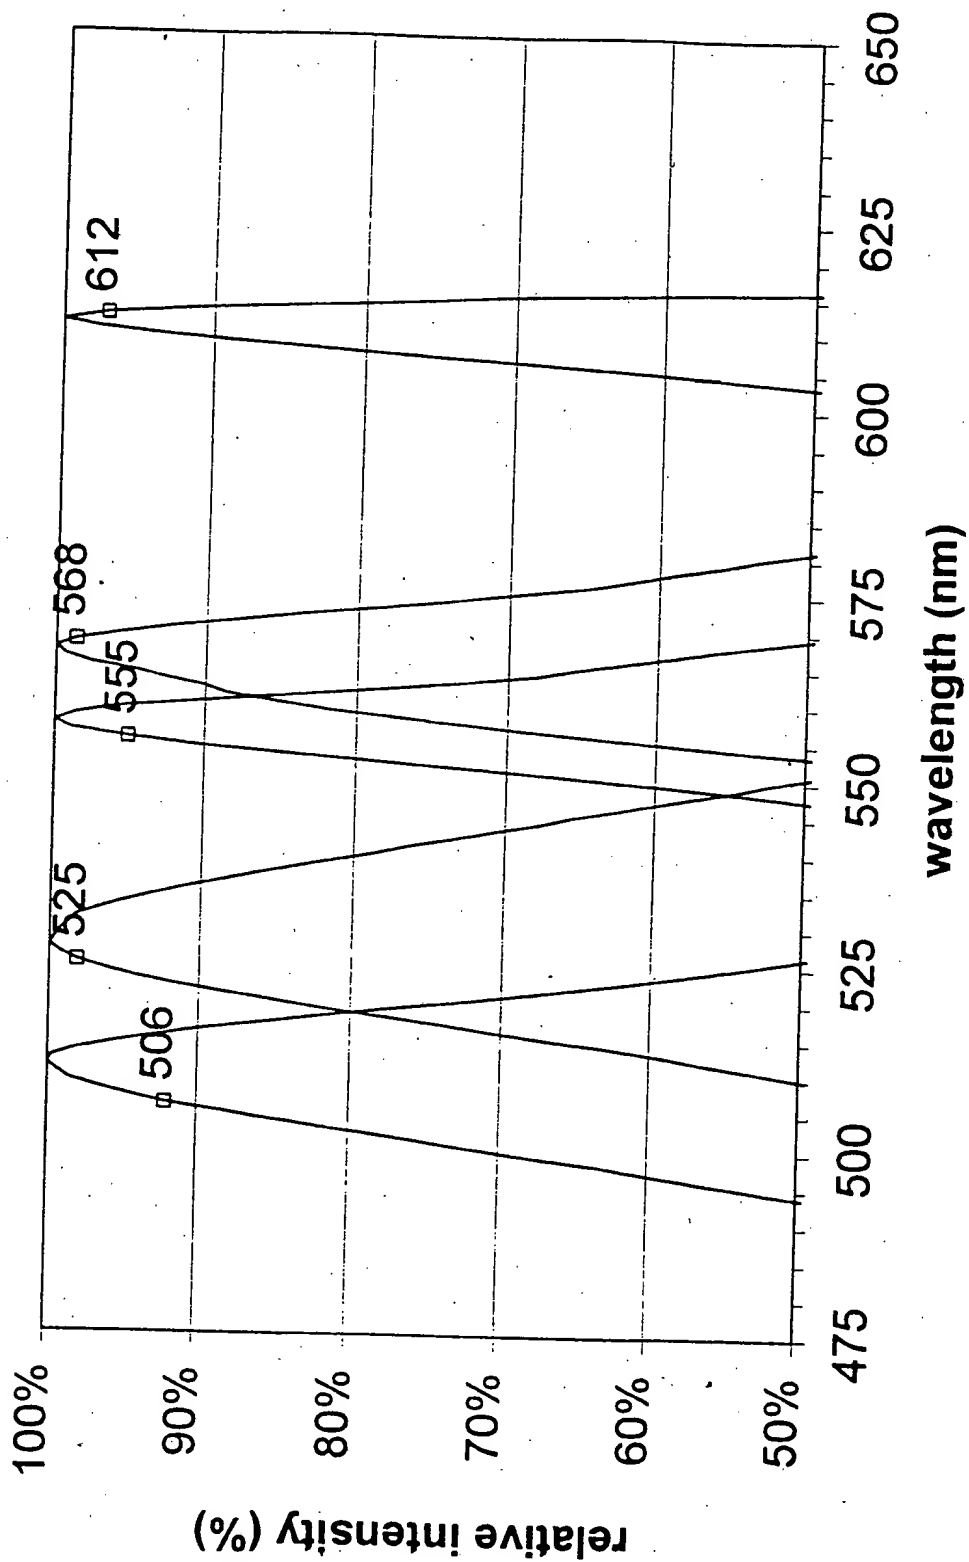

FIG. 3

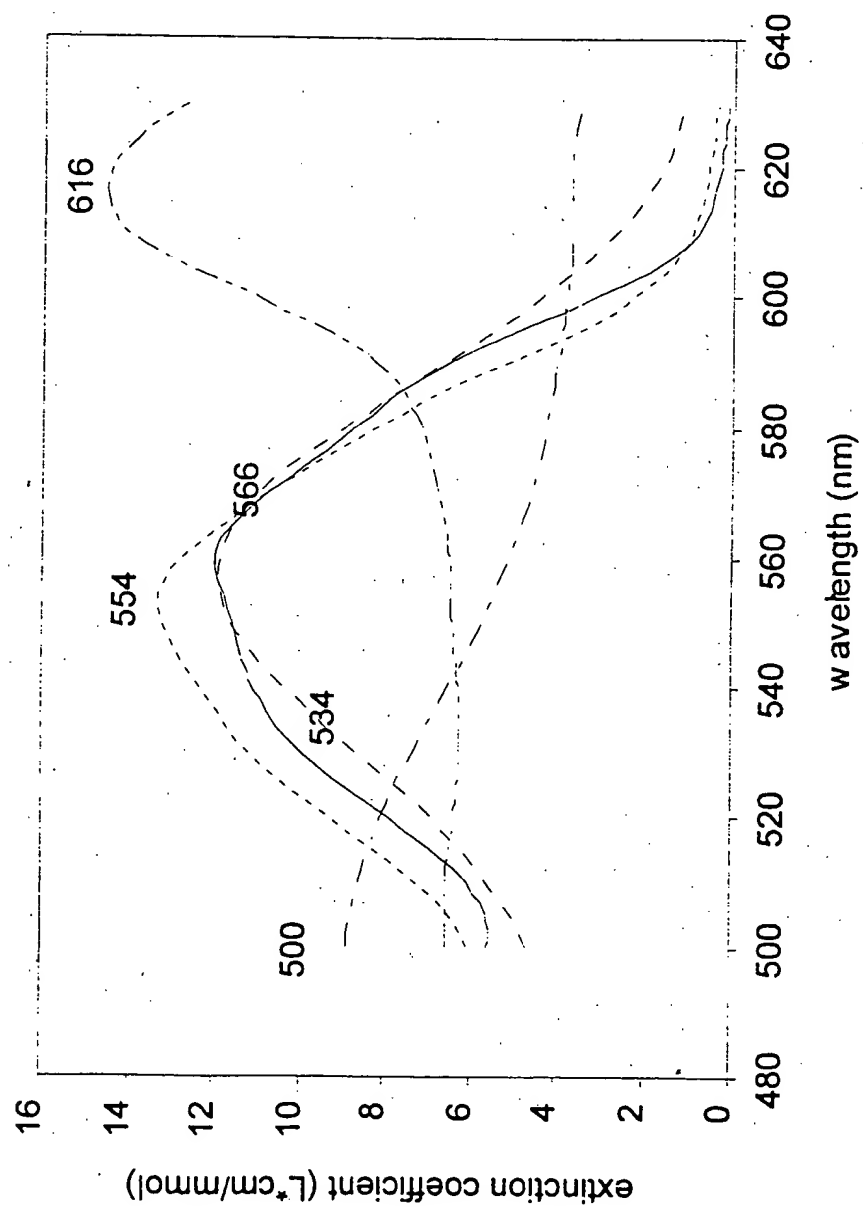

Figure 4  
Real LED Weighted

extinction coefficient (L/(mmol\*cm))

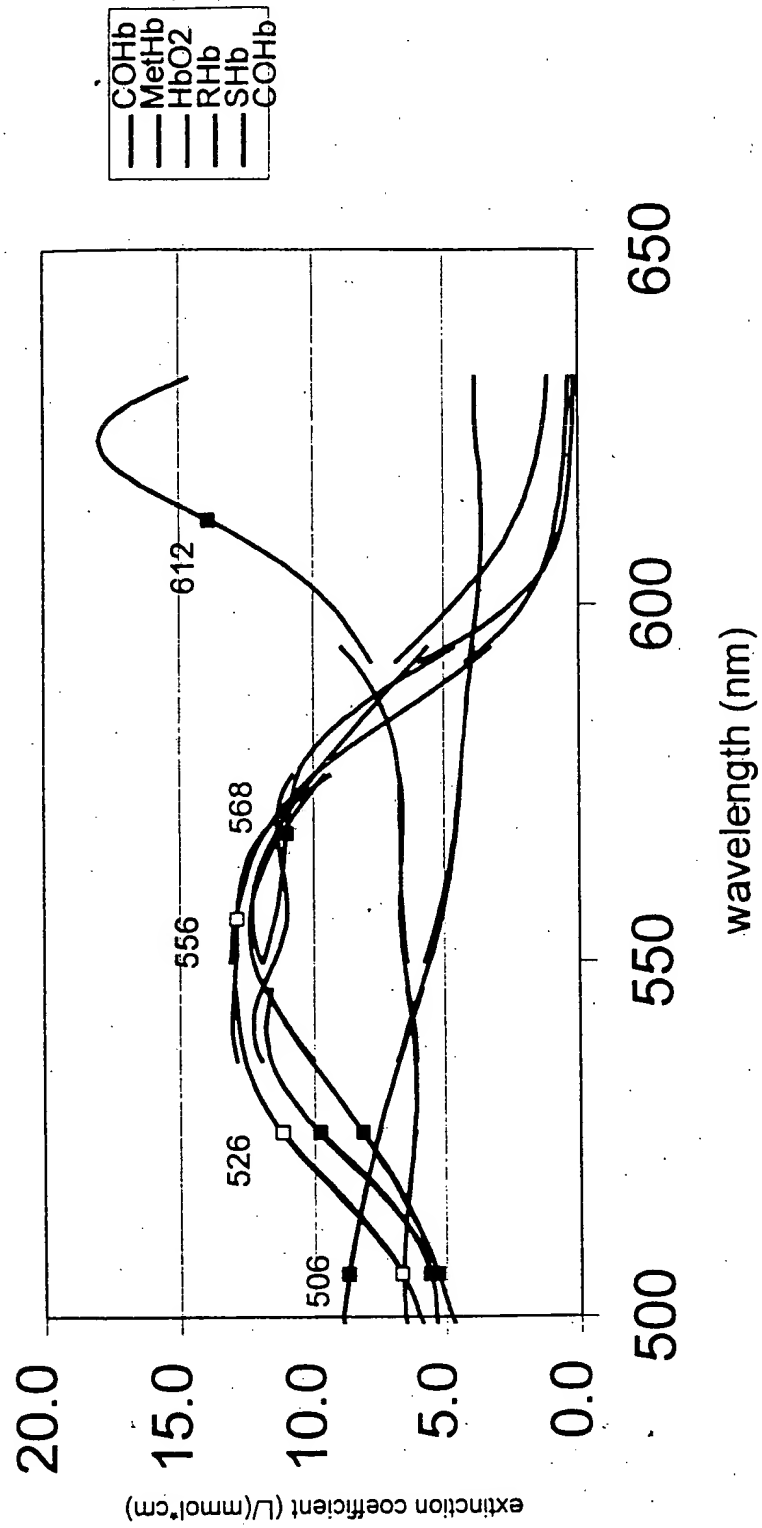

wavelength (nm)

Legend:

- COHb
- MethHb
- HbO2
- RHb
- SHb
- COHb

Key data points labeled on the graph:

- 506
- 526
- 556
- 568
- 612

# Figure 5

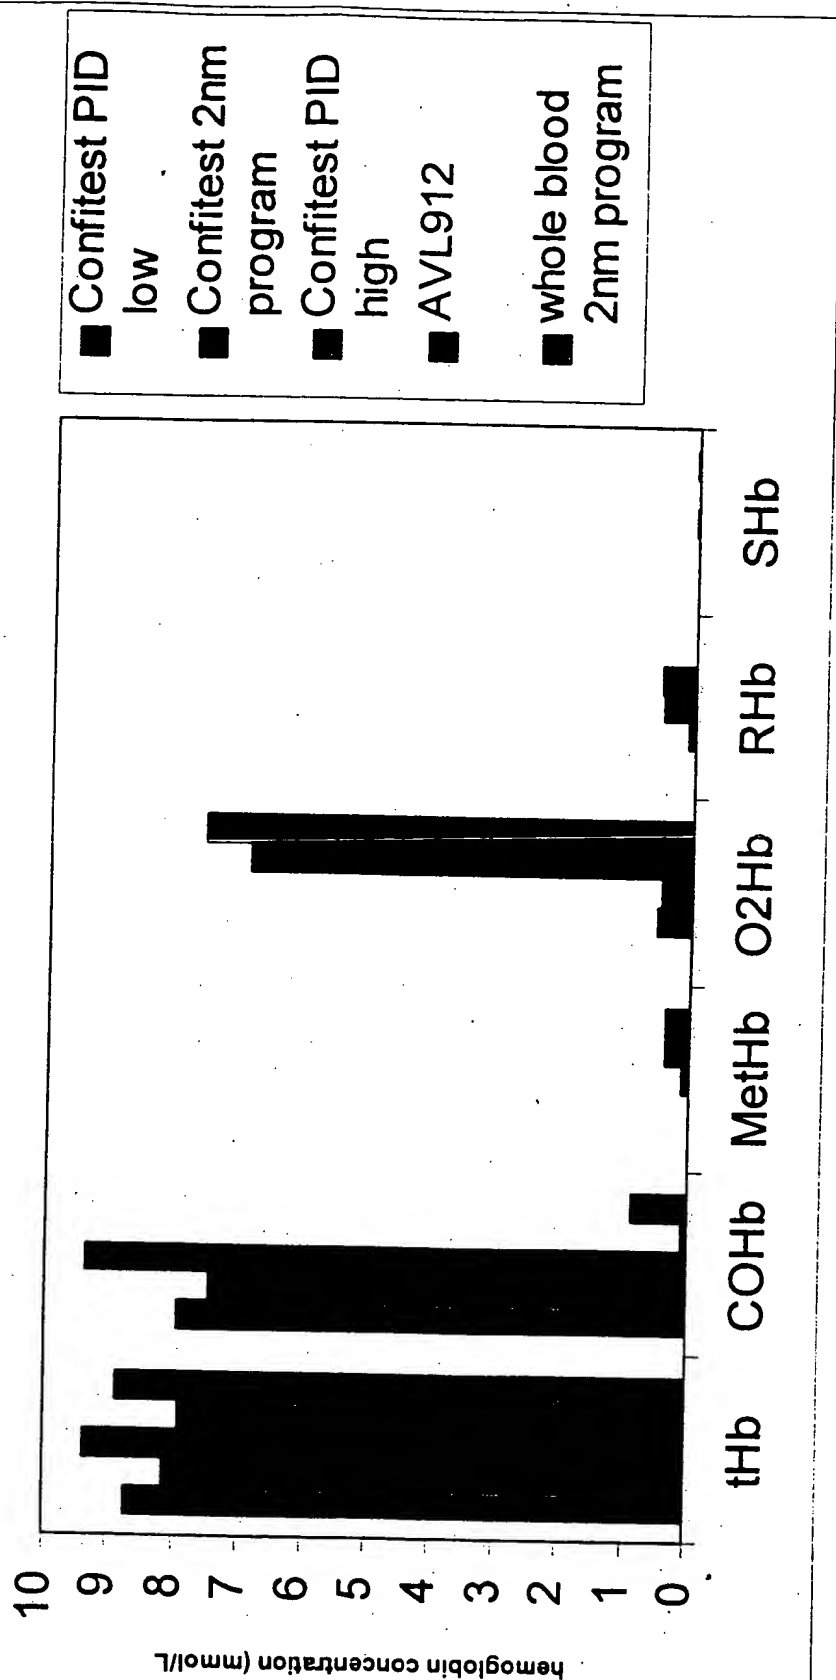

Figure legend read from top to bottom of the graph corresponds to bars of graphs starting from left to right for each hemoglobin form

Figure 6

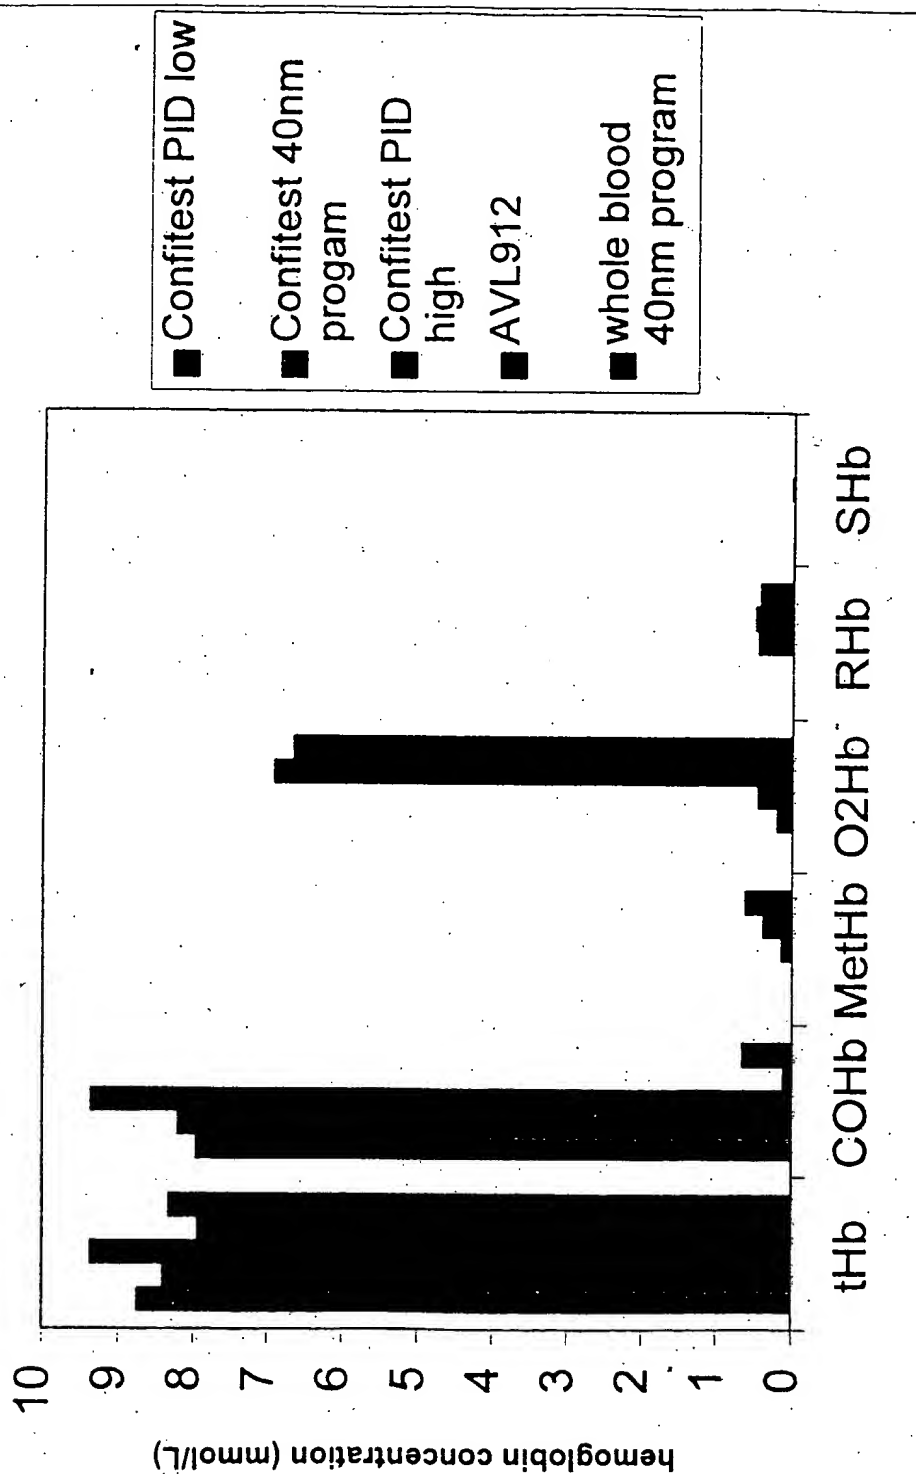

Figure legend read from top to bottom of the graph corresponds to bars of graphs starting from left to right for each hemoglobin form
